**Note that the winning bidders will need to pick up  
their auction items AT the church!**

Go online at the website listed above (or scan the QR code here). **Once the auction starts**, you can create a free account to bid on items. You can even enter proxy bids, to let the computer bid for you (up to an amount you specify) for particular items. You can receive alerts when someone out bids you!

Sound complicated? It's really not! There will be a demo in church on November 13<sup>th</sup>, and volunteers on the auction committee will be available that week to assist you in creating an account if you need any help!
